

Energy \$mart

Helping businesses save money and energy.

Contact **Energy \$mart** today about a free walkthrough and energy rebates.

Funding is limited for these great offers!

www.cityofedgewood.org/EnergySmart.htm

The City of Edgewood has received a federal grant and partnered with PSE to help businesses save money and energy.

Through our new **Energy \$mart** program, the City will:

- ➔ Link businesses to resources that can help save money and energy.
- ➔ Offer a limited number of **free** small business walkthroughs with PSE to identify low- to no-cost energy saving opportunities and rebates.
- ➔ Help businesses apply for PSE rebates to save even more money.
- ➔ Offer a limited number of **Energy \$mart** rebates to make any PSE business rebate go further—up to \$15,000 city-wide.

Energy-saving Benefits

Your business can benefit from energy-saving opportunities in lighting, heating and cooling, equipment, and water heating:

- Reduce your utility bills.
- Receive PSE and, for a limited time, **Energy \$mart** rebates for new, energy-efficient equipment.
- Make your business more efficient and productive.

Rebates and Grants

While funds remain, **Energy \$mart** is offering to add an extra rebate on top of Puget Sound Energy's attractive rebates for energy-efficient lighting, HVAC equipment, appliances, lighting control systems, and much more. Find out more about PSE rebates at www.pse.com.

Utility rebates can cover up to 50% of the cost of lighting upgrades.

We can help you apply and, for a limited time, offer **Energy \$mart** rebates!

To sign up or learn more about Edgewood's Energy \$mart program, free walkthroughs, and rebates, go to www.cityofedgewood.org/EnergySmart.htm or contact Eric Phillips, Edgewood's Community Development Director, at 253.952.3299 or eric@cityofedgewood.org.

Easy Tips for Businesses

Save Money and Energy Now

Adjust your thermostat.

Set the air conditioning at 76° during business hours and 85° when your building is unoccupied. During the winter, set the heat at 68° when your building is occupied and 55° after hours.

Turn off unused lights, equipment, and appliances.

Save energy after hours or when your building is unoccupied.

Track your energy performance.

PSE's online account management tool can help your business track energy use and take advantage of other free resources and rebates.

A free Energy \$mart walkthrough can help your small business find even more ways to save!

Maintain and clean appliances and equipment regularly.

Routine maintenance helps keep equipment working efficiently and safely.

Switch to Compact Fluorescent Lights (CFLs).

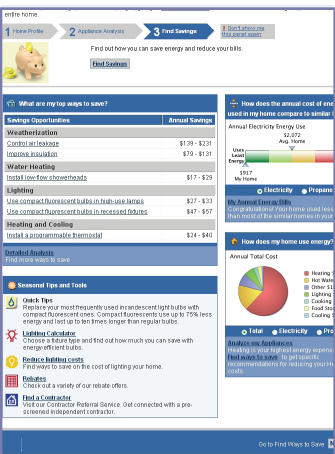

CFLs can save you up to 70% in energy costs and last up to 10 times longer than incandescent bulbs, reducing energy and maintenance costs.

Choose efficient lighting, equipment, and systems.

Look for ENERGY STAR® qualified products, programmable systems, and occupancy sensors. PSE offers many rebates for commercial improvements.

Install low-flow faucet aerators.

Cut water use in sinks by up to 50% to save money and energy from heating water. Inexpensive aerators with a flow rate of 1 gallon per minute or less are available at most hardware stores.
